Twenty-two Years of Service

This Arguto Bearing was in constant use on the counter shaft of an 18-inch Lodge & Davis engine lathe for twenty-two years—and when taken down showed only .0124" wear (inside diameter), not a cut or scratch and an inner surface that was polished like a mirror.

HAS NEVER——
——BEEN OILED

The shaft diameter was 1 7/16"; R.P.M. 230; wear on shaft .003" to .004". The bushing was 5 5/8" long; 2 1/4" outside diameter; 1 7/16" inside diameter. Wouldn't such service be of value to you?

A detailed illustration of a Frost-Proof Closet. It features a vertical cylindrical tank at the top, connected by a long pipe to a horizontal pipe that leads to a toilet bowl. The toilet bowl is mounted on a wooden seat. Below the seat, a curved pipe leads down and to the right. The entire unit is shown in a cross-section or exploded view to show its internal components.

VOGEL

PATENTED

Frost-Proof Closets

Over 350,000 giving satisfaction. Save water; require no pit; simple in the extreme. The most durable water closet made. In service winter and summer.

Enameled roll flushing rim bowls. Heavy brass valves. Strong hard wood seat. Heavy riveted tank. Malleable seat castings will not break.

A detailed illustration of a Frost-Proof Hydrant. It consists of a long vertical pipe with a horizontal handle at the top. Near the bottom, there is a horizontal pipe with a valve handle. The hydrant is shown in a cross-section or exploded view to show its internal components.

VOGEL

PATENTED

Frost-Proof Hydrant

Can be used in the Garage, Yard and Mill Village Houses to great advantage. Nothing of a complicated nature. Only one washer. Simple in construction as a hydrant can be made.

*Sold by Jobbers
Everywhere*

Joseph A. Vogel Co.

Wilmington, Delaware

VOGEL

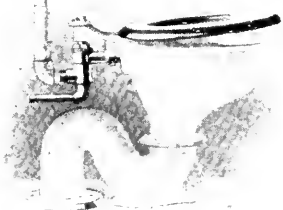

PATENTED

No. 5 Factory Closet

This VOGEL outfit is intended for inside installation—in the factory and industrial plant. The valve device with which it is equipped has the same powerful flush and lasting quality as the VOGEL Frost-Proof Closet.

The No. 5 Factory Closet is built unusually strong and durable to stand the hard knocks of factory wear. If repairs are needed, they can easily be made by removing the valve capback of bowl.

VOGEL Closets stand the test of time.

VOGEL

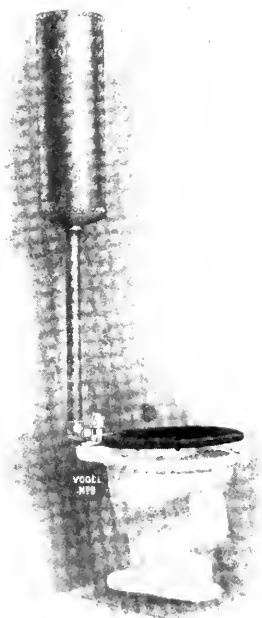

PATENTED

No. 9 Automatic School and Factory Water Closet

Syphon Action, Vitreous china bowl, simply constructed, heavy brass valve, nicked strong golden Oak Seat, galvanized pressure tank and flush pipe.

Saves water, easy of access, repairs are seldom needed. No intricate parts. Only two washers. Nothing to catch the clothing. THOUSANDS IN USE

Can be furnished with extended lip bowl, and where water pressure is sufficient with Syphon Jet bowl.

Sold By Jobbers Everywhere

EXPLANATION OF ABBREVIATIONS

Under each city or town are grouped all the textile mills in that place, without regard to kind of goods made. The kind of mill, i. e., whether cotton, woolen, etc., is shown by the bold face letter at the right.

In order that the general character of the mill may be ascertained without closely reading the data concerning it, a system of abbreviations has been employed as follows:—

A means asbestos mill.	J means jute mill.	P means paper yarns, twines, etc.
B means beaming and burling.	K means knitting mill.	Pr means print works.
Bl means bleachery.	L means linen mill.	S means silk mill.
C means cotton mill.	M means mercerizing.	W means woolen mill.
D means dyeing establishment.	Misc means mills making	X means mills making felts
F means finishing works.	braids; insulated wire; shoe	(all kinds); mattresses;
Fl means flax mill.	and corset laces; embroid-	wadding; absorbent cot-
G for grass fibre plants.	eries; tinsels; fringes;	ton; battings, waste, etc.
	trimmings, etc.

EXPLANATION OF ABBREVIATIONS

Under each city or town are grouped all the textile mills in that place, without regard to kind of goods made. The kind of mill, i. e., whether cotton, woolen, etc., is shown by the bold face letter at the right.

In order that the general character of the mill may be ascertained without closely reading the data concerning it, a system of abbreviations has been employed as follows:—

A means asbestos mill.

B means beaming and burling.

Bl means bleachery.

C means cotton mill.

D means dyeing establishment.

F means finishing works.

Fl means flax mill.

G for grass fibre plants.

W. W. means water wheels.

Dye. If the mill has dyeing facilities, the word "dye" is used.

Power. The kind of power is designated—steam, number of boilers; water, number of water wheels; electric, generate or buy.

S. Agts. means selling agents.

Buyer. In most instances the name of the man who does the buying is given for the larger mills. In smaller mills, or those operated by individuals, the principals usually buy.

Pop. Population.

J means jute mill.

K means knitting mill.

L means linen mill.

M means mercerizing.

Misc means mills making
braids; insulated wire; shoe
and corset laces; embroid-
eries; tinsels; fringes; trim-
mings, etc.

P means paper yarns,
twines, etc.

Pr means print works.

S means silk mill.

W means woolen mill.

X means mills making felts
(all kinds); mattresses;
wadding; absorbent cot-
ton; battings, waste, etc.

Textile Mills in Mexico

We are continuing the publication of the Mexican Directory with data compiled from such sources as are available, both official and commercial. In many cases we have direct reports from the mills giving similar information to that published for American establishments. In other cases, we have only been able to get the names of the concerns and the general character of the goods they make. In such cases, it is quite possible that a mill marked "C" may contain some woolen or knitting machinery as well as cotton machinery.

Mexico is divided into a number of states similar to the United States and in the following list the name of the state is printed in capital letters and the name of the city and town in black face smaller type.

Practically every factory in Mexico has a name by which it is known rather than by the name of the proprietor—for example, "La Providencia". In the following reports this factory name appears first, followed by the name of the company, corporation or individual owner, "S. A." following the name of the owner means "Incorporated Company" corresponding to "Inc." in English.

In addressing a mill in Mexico, the name of the factory should be written first, followed by the name of the company, or owner, then the City or Town, then the State, and finally Mexico. For example—

"LA ESTRELLA"
Cia. Industrial de Parras, S. A.
Parras
Estado de Coahuila, Mexico.

While English is quite generally understood in the larger establishments in Mexico, correspondence and literature in Spanish receive better attention.

We invite correspondence from users of the Directory, which will tend to improve the extent and accuracy of this section.

ESTADO DE CHIAPAS

Cintalapa.

"LA PROVIDENCIA," Viuda de L. Gout; (C Brown Shirtings, Colored Yarns and Drills; 3,000 spindles; 100 looms; dye steam.

ESTADO DE CHIHUAHUA

Standard British Year Books

Cotton Year Book	- - -	\$2.50
Wool Year Book	- - -	2.50
Recorder Year Book	- - -	2.50
Manufacturer Year Book	- - -	1.50

These four manuals are standard handbooks. Each is published annually and kept strictly up to date by particular attention to all new developments in machinery, processing and marketing.

The information is in condensed form for quick reference, yet it is sufficiently full to make the understanding clear. There is a tremendous volume of essential facts contained in each book.

The subject matter begins with the raw material and is carried successively through each stage of manufacture. There are also chapters on market conditions, trade tendencies, etc.

ATLANTA, GA.**

"Cost Control and Accounting for Textile Mills"

By Eugene Szepesi

a remarkable book for the student as well as the practical man—easily understandable and applicable for practical use. This is the first book published that gives an insight into the most modern practice in textile mill cost control and accounting. It is the only book that contains complete information—data, forms and methods. To the student, it supplies information that would otherwise take years to acquire.

Send for catalogue. Be up to date with
your equipment, and lower the cost of pro-
duction. Installed on 30 days' trial.

86 Johnston Avenue

Kearney, N. J.

PART II

MILLS CLASSIFIED ACCORDING TO PRODUCT

Knitting Mills are not included here, as separate classified lists in great detail are contained in the **AMERICAN DIRECTORY OF THE KNITTING TRADE**; price \$2.00.

Full particulars and data about mills in the following list will be found in the Mill Section of the Directory, where they are arranged according to location. Quick reference to each mill may be had from the Alphabetical Index to Mills.

YARN MILLS WILL BE FOUND IN THE YARN TRADE INDEX, BEGINNING ON PAGE 679.

MANUFACTURERS OF COTTON GOODS

The classifications of manufacturers according to product are arranged alphabetically under their various headings. Some fabrics are not listed separately, to avoid duplication, but the headings under which they will be found are indicated, as follows: "Canton Flannel, see "Flannel, Cotton."

UPHOLSTERY GOODS

MANUFACTURERS OF WOOLEN AND WORSTED GOODS

The classifications of manufacturers according to product are arranged alphabetically. Some fabrics are not listed separately, to avoid duplication, but the headings under which they will be found are indicated as follows:—"Skirtings, see Cloakings."

SEE TABLE OF CONTENTS, INSERT FOLLOWING PAGE 112.

BLANKETS (WOOL)

Textile Clearing House

Mill men instinctively go to the Textile Clearing House for

1. THE QUICK DISPOSAL OF USED MACHINERY, ODD YARN, DYESTUFFS, MILL SUPPLIES, AND MILL PROPERTY.
2. LOCATING ANY OF THE ABOVE WHICH THEY MAY NEED AND WANT TO PURCHASE.
3. FINDING THE RIGHT MEN FOR JOBS AND THE RIGHT JOBS FOR MEN.
4. BUSINESS OPPORTUNITIES OF ALL KINDS IN THE TEXTILE LINE.

The Textile Clearing House is the classified advertising section of TEXTILE WORLD, the world's foremost textile paper, published weekly. The advertising rates are so low for the Textile Clearing House that you can afford to use it for almost every requirement. Thousands of mill men who use the Clearing House say it is an indispensable institution of the textile industry.

PART III

YARN TRADE INDEX

In this department will be found classified lists of spinners of different kinds of yarn, who sell their product. So far as possible the sizes of yarn which are made are given, and the form in which the yarn is put up. Dealers and Commission Merchants are not included in this list. There is a separate list following the list of yarn manufacturers in which such firms are included.

The publishers will be pleased to receive notice of any corrections that should be made.

If any kinds of yarn are wanted which are not found in these classified lists, the publishers can probably supply the addresses of manufacturers or dealers from whom they can be obtained.

COTTON KNITTING YARNS

Carded Mule Spun (Single and Ply)

SPUN SILK

Our business is the manufacture of spun silk yarns and that is our only business. We have been in it for thirty-two years.

We do no weaving and we have no interest, direct or indirect, with any weaving plant.

FRANK BAILEY

BUILDER OF

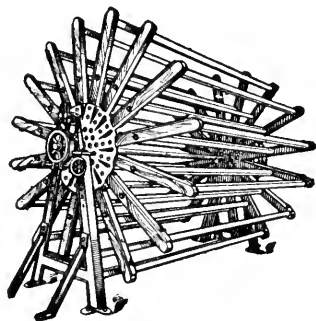

Yarn Drying Machinery

On the COLD AIR SYSTEM. Simple, effective, inexpensive. Leaves yarn in beautiful condition; also on the HOT AIR SYSTEM when great capacity is wanted. Builder of Trucks for Yarn Dryers, Dye Houses, Finishers, general mill work. Also manufacturer of

DYE STICKS

to suit Klauder-Weldon, Lorimer, Hussong, Giles, or any other dyeing machines, from extra fine grade of lumber. Kettle Sticks made from Natural Water Grown Cedar, dry and sulphur. House Poles, round or square. Specialty made of Wringing Sticks. Above articles have been thoroughly tested and pronounced the best on the market. Guaranteed satisfaction to buyers and would be pleased to quote prices.

Specialties, Tinsel**

**Winding, Twisting
Doubling, Reeling
Cones, Cops, Tubes
Skeins, Spools**

Hosiery Tram on Cones

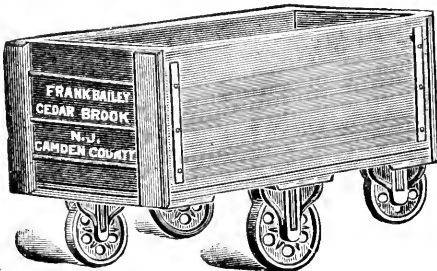

Have You Ever Stopped to Consider What Tangles and Tears Your Skein Yarn;

what causes so much waste; why there is so much trouble in your winding, and so many knots in your yarn? Have you ever examined your dye sticks, dry poles and your trucks, to see if your sticks are smooth, and that your trucks have no places for yarn to catch on and tear the skein? It would pay you to go over these things once in a while. This would save burling and mending, and would help your production in the loom.

I am now supplying over 700 mills and dye houses in U.S. and Canada with **DYE STICKS**, drying and sulphur house poles, wringing sticks, trucks for dry rooms, dye houses and mill purposes. **My trucks have self-oiling wheels.** They are smooth Yarn will not catch on them. They are properly balanced. I build any truck required.

Let me know what you need. Give me a chance to demonstrate my goods.

Custom, Contract

and

Commission Work

This department in the OFFICIAL AMERICAN TEXTILE DIRECTORY was compiled because of the many requests received for names of concerns making a specialty of *Commission* work. When men have work to be done they will consult this list for mills to handle it.

How are you going to make sure that you will get your share of work let out? One way that some concerns make sure they get their share is placing their names and the lines they specialize in in prominent advertising space in this section.

You should also consider this means to place your mill in the limelight among the real progressive concerns. You will find it an investment that will yield big returns.

Every Man in the Cotton Trade

Should Read

COMMERCE AND FINANCE

(The Authoritative Weekly of Business)

Edited by Theo. H. Price

Not only is cotton and the cotton market graphically presented, but the articles reflect the keen judgment for which Mr. Price is noted.

Besides a cotton authority COMMERCE AND FINANCE is an interpretive magazine of business, published to promote sound economic thought.

The news is given in tabloid form,—briefly, interestingly and comprehensively, so the busy man may inform himself quickly and without effort.

Serving the Textile Industry

To be the acknowledged organ of the great American Textile Industry is a distinction of which any business paper might well feel proud.

TEXTILE WORLD, issued every Saturday, is eagerly read by the textile men in all branches of the industry—in all sections of the country.

More than 850 advertisers regularly use TEXTILE WORLD as a medium for carrying their messages to mill executives, who spend on an average \$10,000,000 per week for new construction, machinery, mill supplies and manufacturing equipment.

Subscription rates per year—U. S. (East of Mississippi River)—\$4.00; U. S. (West of Mississippi River), on account of extra postage—\$5.00; Canada, Mexico, Cuba and U. S. Possessions — \$5.00; Other Foreign Countries—\$7.00.

Directory of Textile Merchandise

(Formerly "Directory of Textile Brands and Trademarks")

Lists over 15,000 trademarks and brand names of products of which textile fibers, yarn and cloth are the principal materials; gives brief description of goods and name of manufacturer or selling agent.

A very valuable reference book for all in the textile trade.

Demonstrable Facts

EXCLUSIVE fabrics of the very highest quality may be produced at minimum cost by mounting your looms with Dunlop Organzine.

Dunlop Organzine is made from the very best Japan raw silk that comes into this market, and even then it is submitted to a rigid laboratory test which insures every pound of Dunlop Organzine supplied to our customers to have superior running efficiency over that of any other Japan Organzine in this market.

Years have been spent in the perfection of our plants, in the development of the most modern and scientific methods of throwing silk. We believe that our experienced help and up-to-date machinery have made it possible to turn out a quality of Japan Organzine superior to all other Japan Organzine offered to silk manufacturers in this country.

We solicit a trial order from any silk manufacturer not familiar with the superior quality of Dunlop Organzine to demonstrate the outstanding facts that Dunlop Organzine is more economical, gives greater production, and may be manufactured into the most beautiful silk fabrics obtainable.

"OUR LABORATORY IS YOUR LABORATORY"
